Summary of comments:

As a property owner at the South end of the Lostine Canyon Road, I am pleased to see the Forest Service taking an interest in cleaning up the 11 mile stretch of road proposed in the Lostine Public Safety Project. My family has owned this property for 75 years and we have watched the canyon mature. I was up the canyon when fires and a few slides have happened and feel fortunate to have been unscathed. The density in the forest has increased as well as the people visiting the Lostine Canyon which increases the risks of fires in the area so I am very happy to hear about the proactive project planned.
